Appendix I

**Principles and Ethical Code of Behavior:** *The following principles will guide CPSS in their role as a Certified Peer Support Specialist as well as their relationships and the levels of responsibility in which they function.*

1. The primary obligation and responsibility of a CPSS is their recovery. A self-report to supervisor/mentor will be made immediately if alcohol, drug use, or anything else interferes with recovery.

2. Recovery is guided by self-determination. CPSS assist others in achieving their needs and goals. This includes advocating for the decisions of the peers regarding professional and other services.

3. I will support the Faces and Voices of Recovery Bill of Rights for each person that I serve (see link to [FAVOR - The Recovery Bill of Rights](#)).

4. CPSS advocate for the integration of peers into self-selected recovery communities and will promote the individual's inherent value to those communities.

5. CPSS will act in accordance with the law.

6. CPSS affirm the dignity of each person they serve.

7. Recovery services are provided regardless of someone's age, gender, race, ethnicity, national origin, sexual orientation, religion, marital status, political belief, language, socioeconomic status, or mental or physical condition. If differences that impact the motivation for recovery occur, a CPSS will seek consultation from a supervisor/mentor and, if necessary, make a referral to another appropriate recovery support service provider.

8. The use of physical force, verbal abuse, or any efforts to emotionally abuse; intimidate; threaten; harass, or make unwarranted promises of benefits are strictly forbidden.

9. CPSS share their lived experience to help others identify resources and support services that promote recovery.

10. The privacy of those served will be respected, and CPSS will abide by confidentiality guidelines as required by law.

11. Engagement in sexual or intimate relations with peers served are strictly forbidden.

12. Accepting of gifts of significant value from peers that I serve is strictly forbidden.

13. CPSS will not lend or borrow from the peers that are served.

14. CPSS will continue to improve their recovery service knowledge and skills through ongoing education, training, and supervision.
Faces And Voices Of Recovery - Recovery Bill of Rights

1). We have the right to be viewed as capable of changing, growing and becoming positively connected to our community, no matter what we did in the past because of our addiction.

2). We have the right – as do our families and friends – to know about the many pathways to recovery, the nature of addiction and the barriers to long-term recovery, all conveyed in ways that we can understand.

3). We have the right, whether seeking recovery in the community, a physician’s office, treatment center, or while incarcerated, to set our own recovery goals, working with a personalized recovery plan that we have designed based on accurate and understandable information about our health status, including a comprehensive, holistic assessment.

4). We have the right to select services that build on our strengths, armed with full information about the experience, and credentials of the people providing services and the effectiveness of the services and programs from which we are seeking help.

5). We have the right to be served by organizations or health care and social service providers that view recovery positively, meet the highest public health and safety standards, provide rapid access to services, treat us respectfully, understand that our motivation is related to successfully accessing our strengths and will work with us and our families to find a pathway to recovery.

6). We have the right to be considered as more than a statistic, stereotype, risk score, diagnosis, label or pathology unit – free from the social stigma that characterizes us as weak or morally flawed. If we relapse and begin treatment again, we should be treated with dignity and respect that welcomes our continued efforts to achieve long-term recovery.

7). We have the right to a health care and social services system that recognizes the strengths and needs of people with addiction and coordinates its efforts to provide recovery-based care that honors and respects our cultural beliefs.

8). We have the right to be represented by informed policymakers who remove barriers to educational, housing and employment opportunities once we are no longer misusing alcohol or other drugs and are on the road to recovery.

9). We have the right to respectful, nondiscriminatory care from doctors and other health care providers and to receive services on the same basis as people do for any other chronic illness, with the same provisions, copayments, lifetime benefits and catastrophic coverage in insurance, self-funded/self-insured health plans, Medicare and HMO plans. The criteria of “proper” care should be exclusively between our health care providers and ourselves; it should reflect the severity, complexity and duration of our illness and provide a reasonable opportunity for recovery maintenance.

10). We have the right to treatment and recovery support in the criminal justice system and to regain our place and rights in society once we have served our sentence.

11). We have the right to speak out publicly about our recovery to let others know that long-term recovery from addiction is a reality.
